SUMMARY

I have been working as an Android developer since 2018, as an iOS developer since 2019 and as a Flutter developer since 2020. I have a good knowledge and experience in some program languages and techniques of Swift, Java, Kotlin, Dart, PHP, HTML, CSS, JS, SQL, XML. I love Test-driven development (TDD), I love solving problems by programming and crafting simple, elegant code and I love MVVM, VIPER as a design pattern.
